

Biologo Marino Byron Boekhoudt desacuerdo cu Hotel na Seroe Colorado

ORANJESTAD(AAN): -- Biologo marino Byron Boekhoudt, conoci entre otro di e accion anual pa limpia lama y rifnan di Aruba, ta totalmente contra e plannan pa construi un hotel na Seroe Colorado.

Den un reaccion pa DIARIO, e ta pone di a tuma nota cu asombro di e noticia di construcion di un hotel di luho na unda tabata Esso Club.

Mas a asombre cu den e afan di traha plan no a pensa, ni a papia ningun momento tocante e efectonan cu tal construcion lo tin riba e medio ambiente den e area.

Su palabranan: "Mi no ta discuti cu mester bin desaroyo nobo na San Nicolas.

Ta un hecho, sin duda alguno, cu Pueblo di San Nicolas merece atencion y desaroyo economico.

Mi ta kere sin embargo, cu e beneficinan mester ta pa tur criatura y pa termino largo.

Cualquier desaroyo nobo na Aruba y muy en particular na San Nicolas mester bin na un manera sano y na beneficio di tur hende, sin costa naturaleza dano y tambe cu vista a termino largo.

Pa e motibo aki mi ta trece pa dilanti e posible consecucionan cu un proyecto asina por tin riba medio ambiente di e area.

Nos mester sa e consecucionan aki, ya cu un y tur por ta conciente di kico nos ta scoge pa Aruba bira pasobra al fin al cabo ta nos mes ta scoge.

Ata aki algun factor cu mester tene debito cuenta cu ne:

****Door di su posicion isola y door cu e tabata cera den tempo di LAGO, naturaleza den e area aki no a**

wordo someti na presion di desaroyo manera den otro areanan na Aruba. Manera tur hende sa ta solamente diesinco aña mas o menos, e lugar aki ta habri pa publico. Pa tal motibo, e naturaleza aki den ta mas preserva cu na otro lugarnan.

****Bao di awa tambe esaki ta e caso. Tin rifnan di coral pristino masha impresionante den e area aki y tin un di e diversidadnan (variedad di especienan) mas halto di Aruba. E bunita di e bida bao awa aki ta masha impresionante.**

****Ta bon conoci cu rifnan di coral ta ecosistemanan fragil cu cualquier presion por resulta desastrozo.**

****Un hotel di luho sigur lo tin su impacto riba e medio ambiente di e area y esakinan mester wordo debidamente studia pa scoge concientemente riba e posible consecucionan.**

****Cualquier hotel sigur lo tin bastante "aflozing" (flush, wc, labamano, baño, et cetera) cual tur mester bay un caminda. San Nicolas no ta gosa ainda di un sistema di recicla/purifica awa manera esun na Bubali. Unda e desecho aki lo bay? Si esaki wordo manda den lama, e lo hiba na un desbalanza den e cantidad di nutriente den awa cual lo causa crecimiento di alga riba e rif cu despues lo sofoca e coralnan. Ademas esaki ta sumamente malo pa salud y aunke e no ta wordo controla na Aruba, tin un ley cu ta prohibi desecho den lama.**

****Un hotel na e lugar aki lo tin su efecto riba e biento na e area. Tuma e hotelnan di**

pabao di brug un biaha mas y mira posible efectonan riba biento, corriente y deposito di santo. Na San Nicolas mester studia ki posible efecto esakinan tin riba e meeuwchinan cu tur aña ta broei aki tambe.

****Expansion ta un factor cu mester tene debito cuenta cu ne. Tuma hotelnan na Playa cu a cuminsa como un yachthaven chikito y a expande RUMBO LAMA pa un bon pida. Beachnan artificial lo ta sumamente desaconsejable aki.**

****Un otro factor cu tur hende mester tene debito cuenta cu ne y esaki tambe ta visto na e hotelnan pabao di brug ta cu kier o no kier, un hotel ta pusha hendenan local un**

banda. Quanto lo dura prome cu Baby Beach bira parti di e atraccion di e hotel? Corda cu e hotelnan ta pone parasol y stul cu ta pa nan huespednan so. Tuma ehempel di esunnan pabao di brug. Honestamente, cuanto hende local ta haci uso di e beachnan dilanti di e hotelnan na nan smak? E porcentage ta hopi abao!

****Kico lo para cu e piscadornan cu tin banda di Nanki Club? Nan tambe lo keda perde lugar poco poco mescos cu a pasa na Noord? Mañan ora dicidi cu un yachthaven ta complementa un hotel di luho, lo reserva lugar pa piscadornan (e rachonan diripiente lo no ta acceptable mas pa**

mira)?

Terminando mi kier enfatiza cu e obhetivo ta pa trece atencion debido riba e medio ambiente y especialmente e bida marino di e area.

Mi ta spera cu cualquier desaroyo cu bin pa Aruba, laga gobierno o instancianan profesional hai un Environmental Impact Assessment Study debido (independiente y no "wie betaald die bepaald") prome cu duna aprobacion na cualquier proyecto.

Esaki ta e unico forma cu nos por ta sigur cu nos ta tuma decisionnan debido cu ta bon pa un y tur cu beneficiacion riba termino largo.

Aruba, salvaguardia un di bo recursonan natural, salba nos lama".

Antraco Group

The Antraco Group is a local company with retail, wholesale and service activities geared towards the workplace, school and home. Serving the Aruban community for over 30 years, we currently have 120 members in our service.

Our vision is to be leader in the markets we serve, to be the employer of choice and to be an exemplary corporate citizen. Our philosophy is to maintain long term relations with our customers. We strive to uphold the highest business ethics as we advise our customers regarding new products and technologies to the best of our ability.

We offer

Good salary based on experience and expertise with additional team incentive based on monthly results.

Car allowance

Good productive working atmosphere with growth possibilities

Fringe benefits such as pension fund, risk and life insurance, family medical plan, personnel association

Antraco Business Solutions is responsible for all sales and service activities regarding office equipment and business machines. Antraco Business Solutions represents the best suppliers in this field, such as IBM, Canon and 3M. In this department we have currently a vacancy for a

Product Representative

In this function you will be part of our sales and marketing team. Your main responsibilities will be to secure the market position by maintaining existing accounts, establishing new accounts for our Canon copiers, RISO duplicators and other digital imaging products, and to guarantee optimal customer satisfaction. You will be on the road for most of the time while supported by an administrative section. Through internal training, you will become an expert on the mentioned product lines.

To qualify for this position, you must definitely be a customer oriented person with good business attitude, an honest team player with a pro-active character and creativity on marketing issues. As our market is quite diverse, you will need to dominate Papiamentu, English and Dutch while command of Spanish is certainly an advantage. We require a completed vocational training, preferably with some additional years of relevant experience. You will have to provide your own transportation for which you will be reimbursed.

Please send applications with CV and photocopies of diplomas and driver's license to the Antraco Group, Human Resources Department, P.O. Box 598, Oranjestad, Aruba or pick up our standard Application Form at our reception desk at L.G. Smith Boulevard 126-A. For more information, call us at 823434.
